

SAS FLAG - Print Media Textile

DIRECT PRINT/HEAT TRANSFER

SAS Flag is an optic white, warp knit polyester fabric engineered with our proprietary print receptive coating to ensure excellent penetration from front to back when printed with direct disperse inks.

SAS Flag is constructed with high-tenacity yarns, making it very durable in outdoor conditions. This fabric yields outstanding color consistency with excellent image sharpness when printed with dye-sublimation heat transfer and direct disperse inks.

SAS Flag is an excellent choice for applications including flags with optimal print through, sheer graphics, banners, backdrops, frontlit graphics as well as retail and trade show displays. SAS Flag also serves as an excellent printable fabric for businesses to illustrate hours of operation, curbside and online pick-up orders as well as exterior eye-catching graphics.

This fabric is 100% recyclable

Ink Compatibility:

Dye-Sub Transfer	Dye—Sub Direct	UV	Latex	Screen Print UV	Screen Print Water Base	Aqueous Dye/Pigment	Solvent	Eco-Solvent
Yes	Yes	N/A	N/A	N/A	N/A	N/A	N/A	N/A
